

### Waterstone Property Flipbook

The digital version of the WS Property Journal (see Print: Promo section), this online flipbook emulates the traditional print experience — with audible page flipping, depth and shading, etc. — while providing the ability to zoom, search, download, share and more. And unlike similar pubs, the optional responsive file construction of Page2's system can detect a viewer's device and feed it a version that's either PC-optimized or mobile-optimized (note that this particular sample is PC-only). < view live >
